

Rebooter - Version 1.6

© by Roman Keller - 2005 :: www.romankeller.ch

Change Log ?

Version 1.4:

- ✓ Progressbar during rebooting
- ✓ Improved GUI

Version 1.5:

- ✓ Digital certificate added

Version 1.6:

- ✓ New background picture added
- ✓ New routine for faster rebooting added

Features ?

Reboot your Nokia 9300/9500 without removing the battery

Where to get the latest version ?

You can find the latest version on www.romankeller.ch

Where can you get support ?

I can only support you in my forum on my website and not by email.

How to install ?

1. OPL_Runtime_9300_9500.sis
2. OplUtilsOpx_S80.SIS
3. ApplInfoOpx_S80.SIS
4. Rebooter_16_en.sis

It is very important that you install it in this order, otherwise an error will occur !
You can install a new version of Rebooter without removing the previous version.

Licence ?

Rebooter is freeware ! But I would be very glad about your guestbook entry on my website and a donation.

Donations ?

Please read the instructions for making donations on my website.
